BULB

HEADQUARTERS

As usual, we have made early arrangements with the most reliable growers to produce especially for us Tulips, Lilies, Hyacinths, Narcissus and all other bulbs of the very best quality.

Our prices are equitable considering the goods we offer; you may get lower prices elsewhere at times but you can't get better bulbs. Our reputation as the second largest bulb importer in the United States (last year some one, an authority in the trade, said we were the largest importer), puts us in an advantageous position, and growers of bulbs are unusually anxious to include our house among the first in their accounts. As one of the twelve Holland growers who produce for us expressed himself this spring: "**All growers look out for Michell first**", and in turn **Michell's look out for their customers.**

We print a few testimonials of the many that reached us this spring :

Bangor, Maine, Jan. 9, '09.

Enclosed please find check. I am certainly well pleased with the bulbs I got from you, especially the Harrisii. I cut my first lot Christmas and they were extra good.

CARL BEERS.

Dayton, Ohio, May 4, '09.

I am sending check herewith and I want to say that my Lilies were the best we have ever grown. I saw no disease among them and if you send me as good bulbs on my order of next season, which you already have, I shall indeed be glad.

W. G. MATHEWS.

Easter Sunday comes March 27th, 1910

**Our Additional Establishment, 518 Market Street
(Through to Ludlow Street)**

Henry F. Michell Co. endeavor to send out only the very best quality of Seeds, Bulbs and Plants, but cannot guarantee results or crops. If customers do not accept these goods on the above conditions, they can be returned to us within ten days.

A Word About the Necessity of Thorough Rooting of Bulbous Stock

Many failures with bulbs have been traced to insufficient root development, which is a necessary factor to ensure large, vigorous blooms. Too much stress cannot be laid on this point, because where there are poor roots good flowers cannot be had—the bulbs will not stand the same amount of forcing. Drainage is also of great importance, the best method being to put a small piece of charcoal in the bottom of each pot; besides affording drainage, this will also prevent the soil from getting sour.

MICHELL'S BULBS are the HIGHEST QUALITY obtainable at any price, and will always give good results with proper treatment.

About Discounts on Small Quantities of Bulbs: The prices in this catalogue are *net*; any bulbs offered in our retail catalogue in quantities not found herein are subject to a discount of 25 per cent. from retail catalogue prices.

MICHELL'S SUPERB EASTER LILY BULBS

Easter Sunday in 1910 comes on March 27th

The Weekly Florists' Review.

APRIL 16, 1908.

up and the bulb growers were criticised severely for their careless way of sending out lily bulbs, sometimes having a dozen varieties in one lot and selling them as something select. However, after several had spoken of their failures through receiving poor bulbs, T. Malbranc, of Johnstown, Pa., took the floor and, after saying he was only a green Dutchman, proceeded to tell them that he had only grown lilies five years, having taken them up because he saw a profitable crop in sight. He has had no failures up to this time and he believes that many of the growers are responsible for their failures and that much of the stock is spoiled with the hose. His loss this year is six plants out of 2,000. He pots his bulbs, plunges them under the carnation benches, covers them with cinders and gives about two waterings. When they are ready for the bench they come up and are kept cool until ready to force. Then they are kept going until they are in bloom, always using water sparingly. His crop this year is giganteum. The stock, started in 4-inch pots and moved up, grew larger than bulbs started in 6-inch pots.

W. A. Clarke, only representative at the American Rose Society show, told what he saw there, mentioning the fine stock shown and expressing some aston-

The above represents a clipping from *The Florists' Review*:

The bulbs referred to by Mr. Malbranc were supplied by us.

LILIUM HARRISII (Michell's Special Brand)

These are the cream of the Bermuda Lily crop, being a selection of the most uniform bulbs gathered in districts where the smallest amount, if any, disease exists.

9 to 11 inches	125	3.00	20.00	190.00

LILIUM FORMOSUM

This is the favorite new type of Easter Lily which proved so very satisfactory the last two years. Especially desirable for early forcing. No disease showed itself on any of the plants. From present indications there may be a large demand, therefore immediate ordering would be advisable.

TESTIMONIAL

St. Cloud, Minn.

The Formosa Lilies are showing up first-class and I am sure of the fine results they are going to give us; absolutely free from disease.

KINDLER FLORAL CO.

NOTE.—It is gratifying for us to be able to say that, despite the many complaints that seemed to exist last Easter on Lily Bulbs, we ourselves never had so many good reports on the quality and quantity of blooms our bulbs produced.

Michell's Easter Lily Bulbs

LIL. PHILIPPINENSE

(Something New)

An apparently new Lily which is coming into prominence. It can be used for indoor or outdoor culture, is considered hardy but the introducers recommend storing the bulbs indoors in winter. We quote their cultural instructions, viz.: "Use deep pot, not too rich soil; no fertilizers of any kind should be used. Water sparingly till growth begins; when the bloom has died away or been cut off, continue to water the plant till the leaves turn yellow, when the bulbs may be allowed to dry out in the pot and stored away until they are desired to start again. They like a high temperature, between 80° and 90°. The flower is pure white and very graceful.

Price: 15c. each; per doz., \$1.50; \$10.00 per 100.

I certainly had extra fine flowers from the bulbs you supplied us, on the strength of which I am sending a larger order than usual.

G. LIENHARD.

TESTIMONIAL

SHILLINGTON, PA., April 28th, 09.

My hyacinths were a perfect show, they were pronounced the finest in the market. I had no trouble to dispose of my entire stock during Easter Week. I will write you about my order for next season in a few days.

HOWARD W. SHILLING.

UNNAMED HYACINTHS (for Bedding and Forcing)

Our stock of these is unusually large and fine, we recommend them for bedding only, although many florists still use them for forcing; for the latter purpose, however, we would advise the planting of the **Second Size Named Hyacinths** offered on page 6 (opposite), as they seldom fail to give complete satisfaction.

TESTIMONIAL

Carlisle, Pa.

I heard many compliments passed on the Hyacinths and Lilies that we grew here at the school from bulbs bought of you, and they really were the finest lot I have ever seen.

R. HOFFMAN,
Gardener at Carlisle Indian School.

SINGLE EARLY TULIPS

Our tulip bulbs are grown in the best districts of Holland to insure perfect development and full sized stock. Those who place their order with us may be sure of getting bulbs that will not only bloom, but also prove true to name. The figure in front of the variety denotes the approximate height, while the asterisk (*) denotes that the variety is suited to forcing as well as bedding.

TESTIMONIAL

Liberty, N. Y.

The bulbs arrived in fine condition and are very satisfactory.

E. B. HOLTSLANDER.

*Late Flowering Tulip Bouton d'Or***LATE TULIPS IN MIXTURES**

Bizarres. A combination of colors, principally yellow ground with markings and stripings of red, white and orange. 15c. per doz., per 100, 85c., \$7.50 per 1000.

Bybloemen. A wide range of combinations of white, scarlet, pink, scarlet and crimson. 15c. per doz., per 100 \$1.00, \$8.00 per 1000.

Darwin's. A most interesting class of late tulips, covering a very wide range of colors. 20c. per doz., per 100 \$1.10, \$9.50 per 1000.

Single Superfine Mixed. This mixture embraces almost every type of single late tulips. 15c. per doz., per 100 \$1.00, \$9.00 per 1000.

Double Superfine Mixed. Many prefer the double tulips as they last longer than the single sorts. 15c. per doz., per 100, 90c., \$7.00 per 1000.

PARROT OR DRAGON TULIPS

These belong to the late-flowering class, and, on account of their peculiar markings and shadings, are much in demand. They are curiously curled and crested. They are fine for bedding and border planting. We offer first size bulbs only in Parrot Tulips, as second size rarely bloom the first year.

Constantinople. Orange scarlet, with black markings in centre. 20c. per doz., per 100, 90c., \$8.25 per 1000.

Cramoise Brilliant. Deep carmine; star-shaped centre. 20c. per doz., per 100 \$1.10, \$9.00 per 1000.

Gloriosa. A very showy orange and red sort. 20c. per doz., per 100 \$1.00, \$9.00 per 1000.

Lutea Major. Very large, bright yellow. 25c. per doz., per 100 \$1.00, \$9.25 per 1000.

Mixed in all colors. This mixture is carefully blended and contains only the choicest sorts. 15c. per doz., per 100, 80c., \$7.00 per 1000.

MICHELL'S EARLY DOUBLE TULIPS

Double Tulips are used very extensively for forcing but are equally valuable for bedding purposes. They remain in flower longer than do the single sorts, although they do not make quite as fine a show. They should not be planted in beds with single tulips as they do not bloom as early. The number prefixed before the variety denotes the approximate height.

	Doz.	100	1000
10 Coronne d'Or. A handsome rich yellow variety; grand forcer	\$0 40	\$2 10	\$18 00
7 Duc van Tholl. Red with a yellow border; suitable for bedding or late forcing only, when it does well in pans	12	75	6 50
9 Duke of York. Red with white border; for bedding only	15	95	8 00
9 Gloria Solis. Bright scarlet with deep yellow border; excellent for bedding or forcing	20	1 30	11 50
9 Imperator Rubrorum. Brilliant scarlet; especially adapted to forcing while it makes a handsome effect when used for bedding	40	2 30	22 00
8 La Candeur. Very large, pure white; for forcing or bedding; an excellent bedding variety to be used with the above sort	20	1 20	11 00
8 Le Blazon. Bright pink; for bedding only	25	1 30	12 00
7 Murillo. A very large pink sort, suffused with white; one of the best forcers	30	1 75	16 50
8 Paeony Red. Very dark scarlet, blooms very late and is a good companion to Yellow Rose; it will not force	25	1 25	10 75
8 Rex Rubrorum. Deep scarlet; for forcing or bedding	25	1 50	14 50
8 Rose Blanche. Pure white; suitable for bedding or forcing	15	95	8 50
8 Salvator Rosa. An improvement on Murillo, which it very much resembles; grand forcer	35	2 00	19 00
8 Toreador (New). A handsome rich orange; it should be included in every collection of forcing tulips as it is a grand variety	60	4 75	45 00

Double Unnamed Tulips (Separate Colors)

These are very valuable for solid color bedding where no particular design is to be carried into effect and where expense is considered. At the low price at which they are offered any one can afford them and thus avoid mixtures. They will bloom evenly and make a fine show. They will not force, so must not be planted for that purpose.

MICHELL'S DOUBLE NARCISSUS OR DAFFODILS

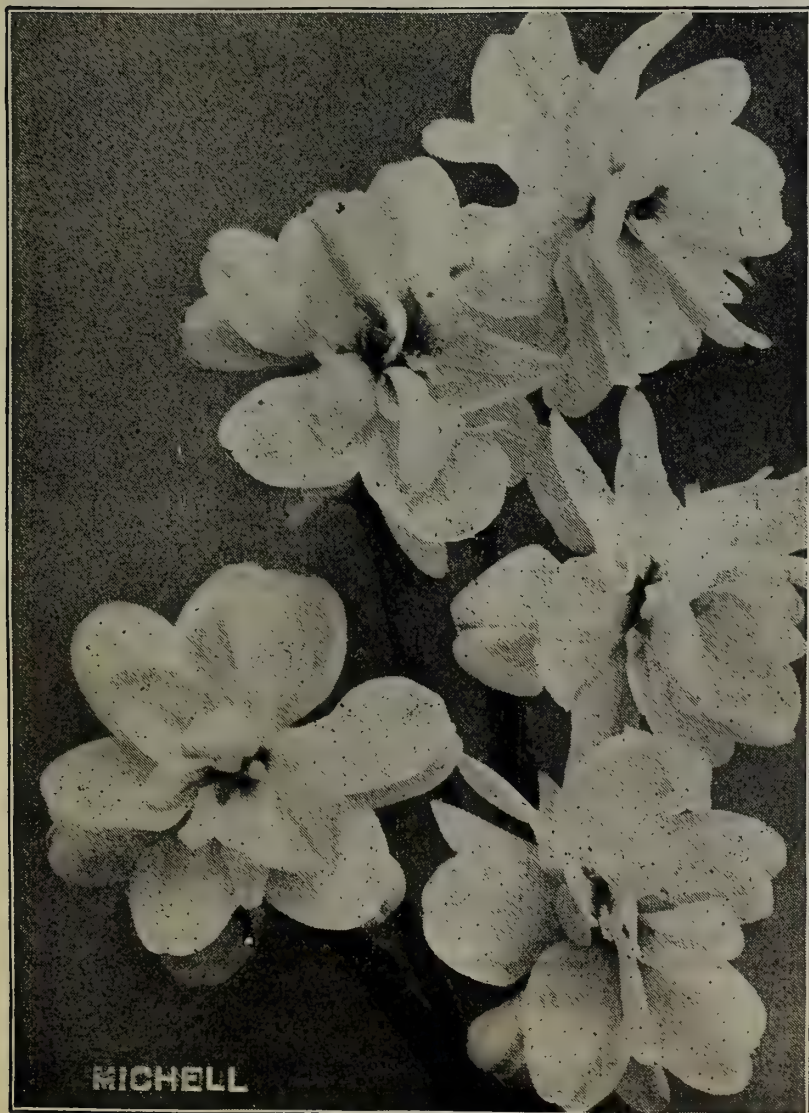

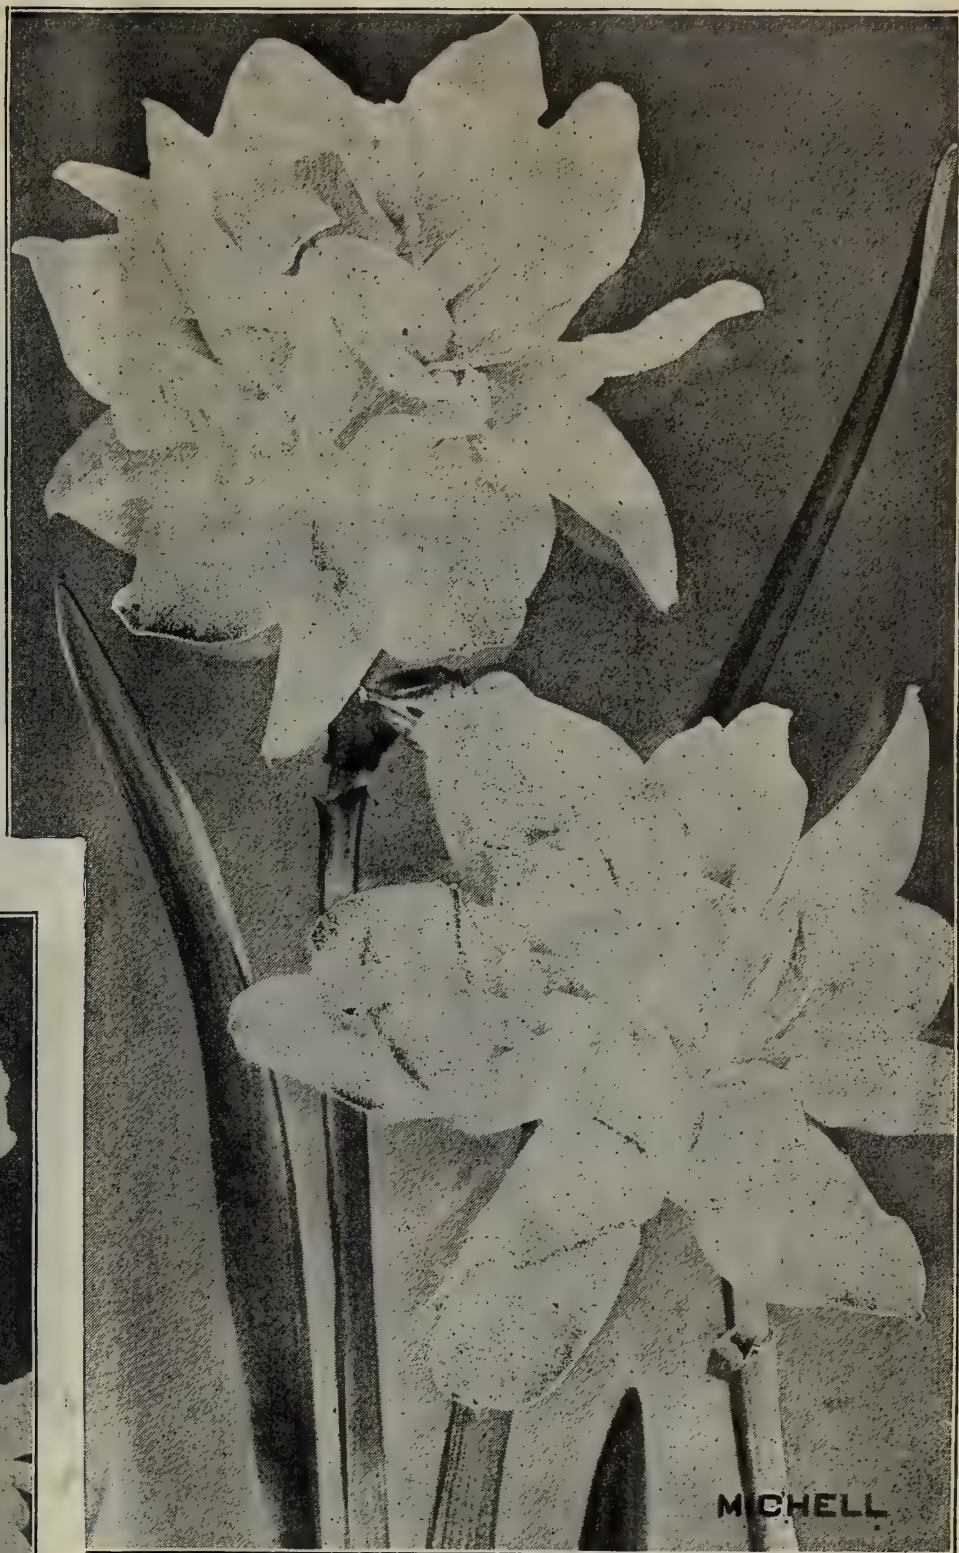

The Narcissus or Daffodil is becoming more popular every year. It is hardy in every way and thrives most anywhere. For naturalizing in woods and fields, nothing equals them. When once established they multiply rapidly and in a short time cover tremendous areas. Our Narcissus bulbs are all grown on contract by the most reliable producers in Europe, and customers may depend upon getting strictly first-class goods. We offer the best and largest bulbs only.

Alba Plena Odorata. A very sweet-scented pure white variety called Double Poet's Narcissus; it flowers later than many of the other daffodils, and is not desirable for forcing. It makes a handsome show bedded among perennial plants and shrubbery; height about 15 in. 12c. per doz., per 100, 60c., \$5.00 per 1000.

Incomparable Double. On account of the peculiar suffusion of the colors in the flower, this variety is also known as "Butter and Eggs." The color is yellow and orange and makes an attractive cut bloom. Its greatest value is for outdoor planting as it does not force so well. Height about 16 in. 15c. per doz., per 100, 90c., \$8.00 per 1000.

Orange Phoenix. A variety similar to the above, except for coloring, which is a light yellow, almost white, with a yellow centre. It is splendid for forcing or pot culture. It is also called "Eggs and Bacon." Height about 16 in. 18c. per doz., per 100, \$1.00, \$9.50 per 1000.

Sulphur (or Silver) Phoenix. Flowers very large, of a blush-white; the centre is exceptionally sulphur colored; excellent for forcing or outdoor planting. Height about 18 in. 30c. per doz., per 100, \$1.75, \$14.50 per 1000.

Double Narcissus. Monster Von Sion

Von Sion. (*Telimonius Plenus*.) The true double daffodil. Our stock of these comes from one of the largest daffodil producers in Holland. The color is a pure golden yellow entirely free from green-tipped flowers, which are often found in cheap grades of bulbs. For forcing or outdoor planting it has no equal in the daffodil line. It should be planted extensively in woods and fields for naturalization. Height about 15 in. We will be pleased to quote special prices on larger quantities than noted here.

	Doz.	100	1000	5000
First Size Bulbs	\$0 25	\$1 35	\$11 50	\$55 00
Mammoth Size Bulbs	30	1 85	17 50	
Monster Bulbs, producing three or more flowers per bulb	45	3 00	27 50	

Double Mixed Narcissus. All shades, varieties and colors. A quantity of these make a handsome investment, and at the low price at which they are offered, should be planted extensively. The mixture embraces some of the most expensive types. Do not force the mixed narcissus. 12c. per doz., per 100, 80c., \$6.50 per 1000.

Double Narcissus Alba Plena Odorata. (See description above)

6 Bulbs of any one variety at dozen rate, 25 at 100 rate, 250 at 1000 rate

SINGLE NARCISSUS

Albicans. "Giant Spanish Daffodil," perianth pure white with a large prominent primrose trumpet, shading towards white. It is a handsome flower in every way. 30c. per doz., per 100 \$1.65, \$14.50 per 1000.

Ard Righ (or Irish King). A very early pure yellow sort, well adapted for forcing and pot culture. Height about 12 in. 30c. per doz., per 100 \$2.00, \$18.00 per 1000.

Barrii Conspicua. A beautiful flower with large spreading yellow perianth; the crown or cup is orange scarlet; free bloomer; best suited to outdoor culture. Height about 20 in. 20c. per doz., per 100 75c., \$6.00 per 1000.

Bicolor Grandee. Flowers very large with pure white petals, with yellow trumpet; flowering late. Height about 12 in. Fine for cutting. Best for outdoor culture. 20c. per doz., per 100 \$1.00, \$8.00 per 1000.

Narcissus Burbidgei

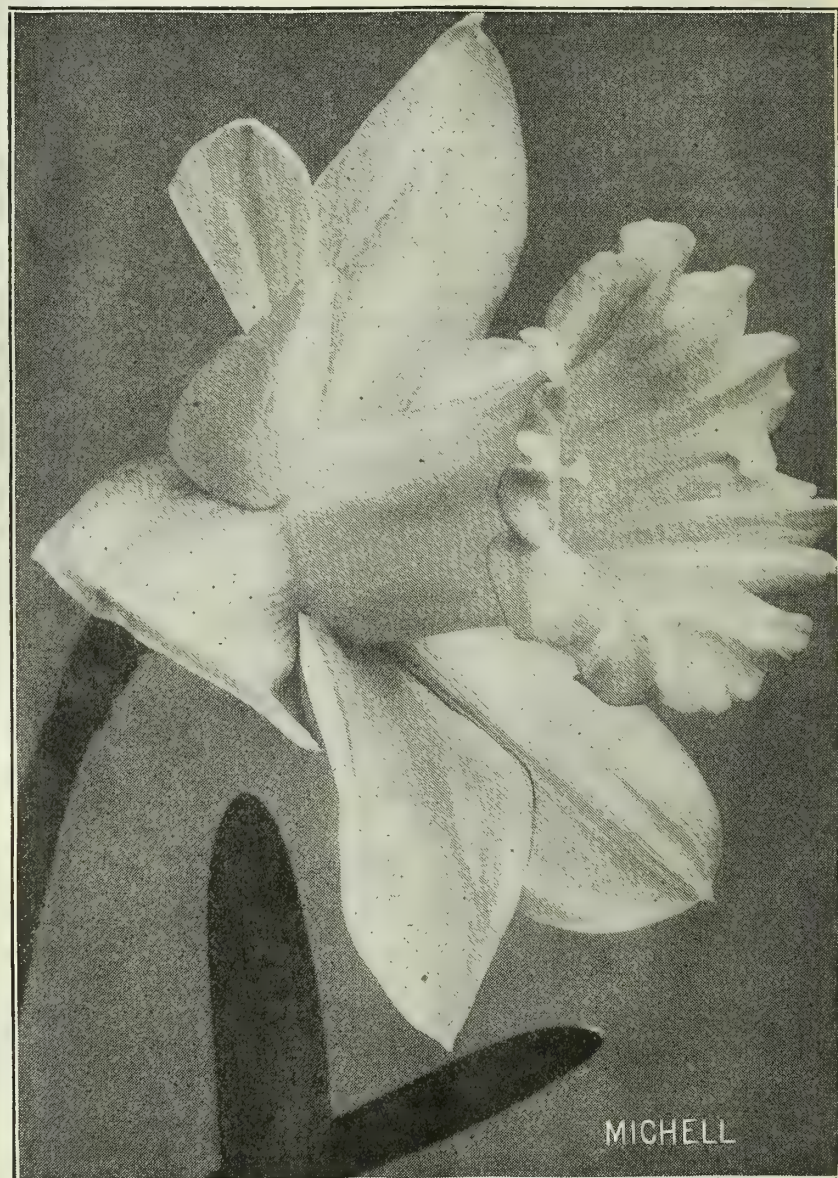

Burbidgei. The earliest flowering Poeticus type, pure white, with a red edged cup, for outdoor planting only. 10c. per doz., per 100 60c., \$5.50 per 1000.

Bicolor Victoria. Pure white perianth with yellow trumpet, an extra large flower, suitable for forcing or bedding. Height about 18 inches. 30c. per doz., per 100 \$1.90, \$16.75 per 1000.

Biflorus. A class of Poeticus, flower white and yellow, adapted for outdoor culture only. 12c. per doz., per 100 75c., \$6.50 per 1000.

Campernelle. See Jonquils on page 14.

Cynosure. Perianth primrose stained orange scarlet, with yellow cup. A fine variety for cutting. Height about 12 in. 15c. per doz., per 100 75c., \$6.00 per 1000.

Single Narcissus Emperor

Emperor. This is the grandest of all single daffodils. The flower is pure yellow of gigantic size. It may well be termed the King of Daffodils. Excellent for forcing or bedding. Height about 20 in. 30c. per doz., per 100 \$1.50, \$13.50 per 1000.

Emperor Monster Bulbs. 50c. per doz., per 100 \$2.90, \$24.00 per 1000.

Empress. A beautiful sort, with yellow trumpet and pure white perianth; flower almost as large as Emperor. It is the finest of the two-colored daffodils; suited to either forcing or bedding. Height 20 in. 35c. per doz., per 100 \$1.50, \$13.00 per 1000.

Figaro. Yellow perianth with orange yellow cup shaded, beautifully formed flowers, especially recommended for bedding. 15c. per doz., per 100 75c., \$6.00 per 1000.

TESTIMONIAL FROM ALABAMA

Cullman, Ala.

The shipment of bulbs arrived in good condition and are very satisfactory indeed.

D. REICHENBACK, Florist.

SINGLE NARCISSUS—Continued

Giant Princeps. A very early sort, suited to forcing as well as outdoor planting; trumpet, pure yellow with sulphur-white perianth. Height about 15 in. 15c. per doz., per 100 80c., \$6.50 per 1000.

Glory of Leiden. Giant pure yellow for forcing or bedding. One of the finest daffodils in existence. Per doz. \$1.50, \$12.00 per 100.

Golden Spur. One of the finest pure yellow daffodils in cultivation. The flower is very bold and striking; very early and free flowering; excellent for forcing. Height about 20 in. First Size Bulbs 25c. per doz., per 100 \$1.65, \$13.25 per 1000. Giant Bulbs 45c. per doz., per 100 \$2.65, \$23.50 per 1000.

Henry Irving. A very symmetrical golden yellow variety; fine for pot or garden culture. Height about 18 in. 25c. per doz., per 100 \$1.50, \$12.50 per 1000.

Narcissus Leedsii Mrs. Langtry

Leedsii (Mrs. Langtry). A very free flowering sort, several flowers being produced on one bulb; perianth broad, pure white, with white cup edged yellow; excellent for cutting. Height about 12 in. 15c. per doz., per 100, 75c., \$6.00 per 1000.

TESTIMONIAL FROM NORTH CAROLINA

Mocksville, N. C.

Your bulbs are the best I ever bought from any house.

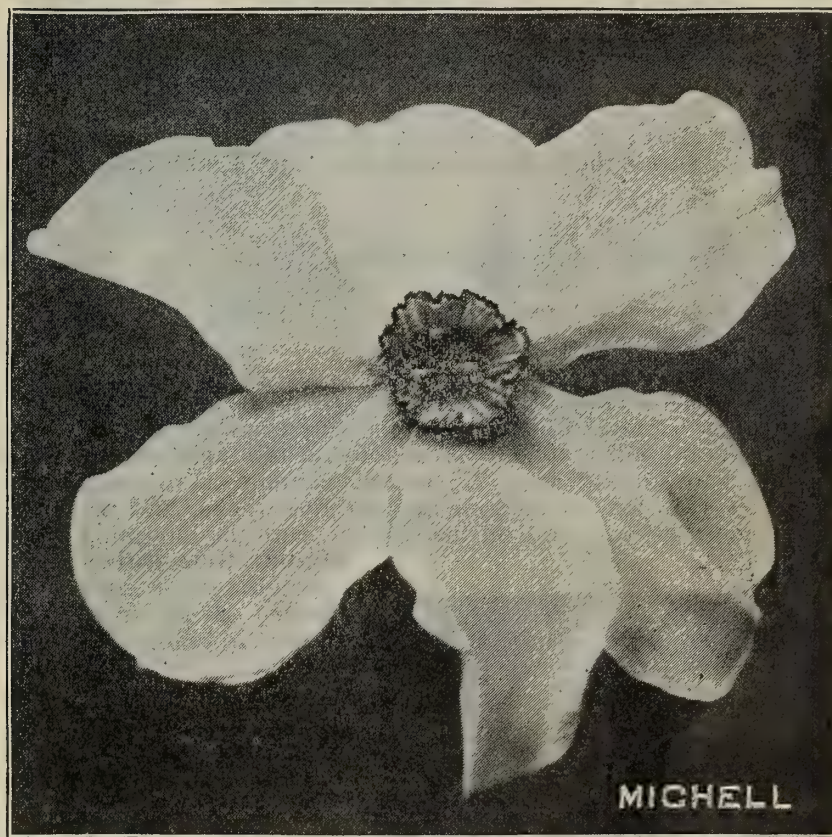

MISS A. P. GRANT.

Hoop Petticoat. (*Bulbocodium Narcissus*.) This is a small diminutive flower, yet very attractive; color, exquisite golden yellow. It shows off to best advantage when planted in bulb pans; when in flower it presents a blaze of showy yellow. They are dwarf and consequently not suited for cutting, but are excellent for table decorations. Each bulb produces 6 to 8 flowers. Height about 6 in. 40c. per doz., per 100 \$2.50, \$24.00 per 1000.

Horsfieldi. A variety very much like Empress; very early and free flowering. It makes a fine cut flower; suitable for either forcing or outdoor culture; perianth, pure white with yellow trumpet. 25c. per doz., per 100 \$1.25, \$11.00 per 1000.

Incomparable Stella. The earliest white and yellow variety to bloom outdoors; the flower is somewhat star-shaped; perianth pure white, with deep yellow cup. Fine for planting in borders or masses; suitable for late forcing. Height about 12 in. 15c. per doz., per 100, 65c., \$5.00 per 1000.

Obvalaris (Tenby Daffodil). Giant pure yellow, extensively used for outdoor planting, handsome trumpet and perianth. 25c. per doz., per 100 \$1.50, \$13.50 per 1000.

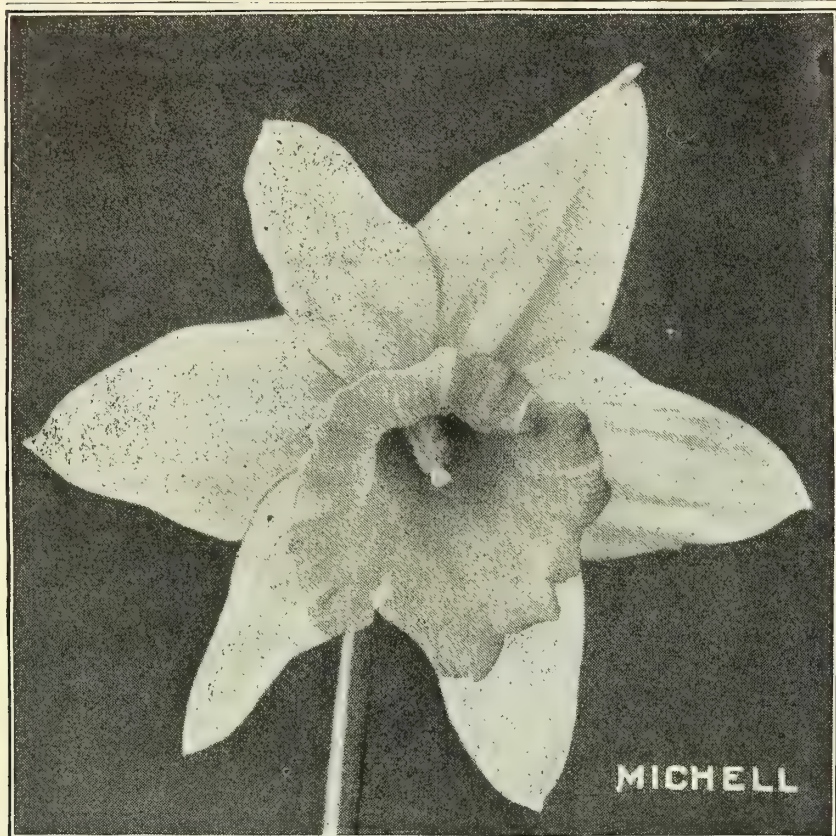

Narcissus Poeticus Ornatus (Natural Size)

Poeticus Ornatus. An improvement on the regular Poeticus, being fully two weeks earlier; also suited to forcing; the height and appearance of the flower is much like the regular variety. 12c. per doz., per 100, 65c., \$5.75 per 1000.

Poeticus (Pheasant's Eye). A pure white small flowering type with scarlet eye; they are very fragrant, and are valuable for cut flowers; they bloom quite late and are not suited to forcing; fine for naturalizing or planting in clumps. Height about 15 in. 10c. per doz., per 100, 50c., \$4.50 per 1000.

Sir Watkin. Sometimes called chalice flower. The bloom is very large, measuring often 5 in. in diameter; perianth, golden yellow with a deep cup or crown; excellent for forcing. Height about 20 in. 25c. per doz., per 100 \$1.40, \$12.50 per 1000.

*Narcissus Trumpet Major*

SINGLE NARCISSUS (Continued)

Trumpet Major (Dutch grown). A grand, pure yellow trumpet type; excellent for early forcing or for planting outdoors. Height, about 16 in. 18c. per doz., per 100 \$1.00, \$8.75 per 1000.

Trumpet Major (French grown). For very early forcing these are very good; the flower is identical with the Dutch grown stock.

Single Mixed Narcissus. For outdoor planting. 12c. per doz., per 100 60c., \$5.00 per 1000.

CHINESE SACRED LILY BULBS

We import these direct from China, where we get the selection of fine, sound bulbs. These sell readily on the store counter, and yield a handsome profit. We would recommend to force a few into flower, which can be done in about five weeks, and place the bulbs you desire to sell on the counter, with the blooming plant.

Regular Size Bulbs. 60c. per doz., per basket (30 bulbs) \$1.25, \$4.50 per bale (120 bulbs), \$32.50 per 1000.

Mammoth Size Bulbs. \$1.00 per doz., per basket (30 bulbs) \$2.25, \$7.50 per bale (120 bulbs), \$60.00 per 1000.

GOLDEN CHINESE LILIES

SWEET SCENTED JONQUILS

These are perfectly hardy and are suitable for either outdoor planting or forcing. They are delightfully fragrant, and are worthy of extensive cultivation.

Single Jonquils. Rich yellow, very fragrant; height 12 inches. 10c. per doz., per 100, 50c., \$4.00 per 1000.

Double Jonquils. Flowers very double, deep golden-yellow; height 12 inches. 20c. per doz., per 100 \$1.10, \$9.50 per 1000.

Campernelle. Single yellow; a grand forcer. 10c. per doz., per 100, 60c., \$5.00 per 1000.

Campernelle Rugulosus. Single yellow; larger than the plain Campernelle. 12c. per doz., per 100, 75c., \$6.50 per 1000.

POLYANTHUS NARCISSUS

The flowers are produced in clusters, like the illustration below, and they are delightfully fragrant. All of them are suitable for forcing.

Double Roman. White perianth, with an orange and yellow suffused cup; very free flowering and early. 20c. per doz., per 100 \$1.00, \$9.00 per 1000.

Gloriosa. A very showy type, with white perianth and orange-yellow cup; very pretty. 30c. per doz., per 100 \$1.75, \$15.00 per 1000.

Grand Monarque. Large, broad, white perianth with a primrose-yellow cup; a very striking flower. 25c. per doz., per 100 \$1.50, \$14.25 per 1000.

Grand Soliel d'Or. Rich yellow, with deep red cup. For cutting this is a fine variety, as it makes a grand show. 30c. per doz., per 100 \$1.50, \$14.00 per 1000.

Polyanthus Narcissus, Mixed. All colors and varieties. These will be found a good investment for pot or pan culture. They are low in cost and this mixture contains some of the highest-priced sorts. 20c. per doz., per 100 \$1.10, \$9.00 per 1000.

*Narcissus Paper White Grandiflora*

Paper White Grandiflora, First Size Bulbs. 13 ctm. and up.

This is quite a specialty with us; of it alone we import almost one million bulbs. Pure white flower; used extensively for forcing. 20c. per doz., per 100 \$1.00, \$9.00 per 1000. (5000 for \$43.75) (10,000 for \$85.00).

Paper White Grandiflora, Monster Bulbs. These are a very choice selection of the above. 30c. per doz., per 100 \$1.30, \$11.00 per 1000. (5000 for \$53.75).

New Tuberous Begonia, Crispa Type

NEW BEGONIA CRISPA

A beautiful frilled or crested type, producing very large single flowers. The above photograph, which was made from an actual bloom, will convey some idea of its beauty. Every florist who grows tuberous begonias should plant some of this variety, as they will sell at a fancy price retail. We offer large bulbs in mixed colors, ready in December, 10c. each, per doz., \$1.00; \$7.00 per 100.

**Dielytra (Bleeding Heart)****DIELYTRA (Bleeding Heart)***Ready in November*

Few florists realize the value of this plant for forcing for decoration work. While it is not a cut flower, it makes a striking pot plant; it forces very readily and without much trouble. It is always in demand by churches, and brings a good price. The flower is borne in long racemes of a beautiful white and rose color. We have engaged a large stock of mammoth roots. NEW FREESIA "PURITY" (Fischer's Own Growing)

This variety exceeds by far any Freesia ever offered; it is of a **Snowy, Glistening** white color, borne on stout, wiry stems, two feet in length; it is said by those who have seen it that a bunch cut and placed in water will give the same effect as roses or carnations, so gigantic are the blooms. Please do not compare these prices with the so-called Purity Freesias that are not Fischer's own growing.

Michell's Mammoth Russian Valley

LILY OF THE VALLEY (Ready in December)

MICHELL'S MAMMOTH RUSSIAN BRAND (3-year-old Pips). This is the finest selection of Valley imported; the pips are very large; the roots are long and fibrous, thus insuring plenty of strength for producing long spikes with large bells. \$1.60 per 100, per 1000 \$13.00, \$25.00 per case of 2000.

Our Russian Brand Valley is among the very best grades imported.

A Bunch of Spanish Iris

IRIS

SPANISH IRIS. This is just like a miniature Orchid; in fact, it is more handsome than many of the latter. The flowers are beautiful and very delicate. They may be used for bedding outdoors, but for forcing they are especially adapted; they take up no particular space in a greenhouse and require little or no special attention after planting. They command good prices and we recommend every florist to try them. While they are hardy we recommend a covering of litter to protect them during the severest part of winter.

Michell's Double Paeonies

PAEONIES (Ready in November)

We have a fine large importation of these, due to arrive in November. Imported Paeonies are much larger than home-grown stock. The Paeony is becoming more and more a universal cut flower; they are constantly being improved upon; they sell well in any market when they are in bloom, and in view of the small expense at which they can be maintained every florist should plant a quantity of them. The separate colors are desirable.

Scilla Siberica

SCILLA SIBERICA (Squills)

A pretty blue flower, making an attractive combination when planted with Snowdrops or Crocus. They flower very early and remain in bloom some time. For growing in pots or pans they are also desirable. Planted in hyacinth and tulip beds as background they show off nicely, coming into flower before either of the above. We import large bulbs only. 15c. per doz., per 100 75c., \$5.75 per 1000.

Scillas make a fine edging for Hyacinth or Tulip beds.

Spirea Gladstone

SPIREA (*Astilbe*) (*Ready in November*)

This is a favorite Easter flowering plant rivaling with the lily. We procure stock from first hands and florists may depend on getting extra choice clumps with plenty of flowering eyes.

Gladstone. One of the newer varieties. It is the best white sort in existence to-day, producing an immense plant with a mass of flowers. Large clumps: \$1.30 per doz., per 100 \$9.00, \$85.00 per 1000. Monster clumps: \$1.75 per doz., per 100 \$12.50, \$110.00 per 1000.

Astilboides Floribunda. A very plummy variety; pure white; a favorite with all florists. 70c. per doz., per 100 \$4.25, \$37.50 per 1000.

Compacta Multiflora. Of dwarf habit, very compact growth; pure white. 75c. per doz., per 100 \$4.75, \$40.00 per 1000.

Japonica. The old type of Spirea, growing taller than the other sorts. 70c. per doz., per 100 \$4.25, \$37.50 per 1000.

McKinley. A good, new, white variety. Large clumps: \$1.50 per doz., per 100 \$8.00, \$75.00 per 1000.

Queen Alexandra (New). A beautiful shade of pink. Being an offspring of the Gladstone it requires the same cultural methods. The plant should be shaded as it comes into bloom in order to bring the flower to full perfection. This is the only satisfactory pink forcing Spirea on the market. Large clumps, suitable for 7 and 8 in. pots, \$3.00 per doz., 25 for \$5.50, \$20.00 per 100.

Washington. This variety is similar to Gladstone but does not stand forcing so well; it should be allowed more time for bringing into bloom. The flowers are pure white and borne in great profusion. Large clumps: 85c. per doz., per 100 \$5.50, \$50.00 per 1000. Monster clumps: \$1.25 per doz., per 100 \$7.00, \$65.00 per 1000.

Many thanks for sending us such fine bulbs; the Romans and Paper White Grandifloras were fine. The Spirea were the best we ever grew. Please find enclosed next year's bulb order.

BOATWRIGHT FLORAL CO.

An Opinion Passed by Three Judges in Horticulture on Michell's Spirea (*Extract from a N. J. Horticultural paper*)

A magnificent group of SPIREA GLADSTONE was staged by Otto Koch, gardener at the N. J. State Hospital. Judges Duckham, Herrington and Totty awarded a certificate of merit, declaring it was the grandest lot of Spirea they had ever seen. An invitation was also accepted to inspect the other Easter Flowering Bulbs at the Hospital Greenhouses. They were pronounced perfect. All the bulbs and roots were supplied by HENRY F. MICHELL CO.

WATSONIA ARD. O'BRIENII

Of all the acquisitions to our list of bulbs we know of nothing more meritorious than this lovely South American Irid. The lovely pure white flowers are produced on long stems four to five feet in length, and in lavish profusion. For cut flowers they have proved especially valuable as they last several days in a cut state and are very decorative in character. While the general character of Watsonia Ardernei both in the bulb, foliage and manner of florescence is similar to gladiolus, the time of growth and planting is entirely reversed; the Watsonia should be planted early in the fall and continue in growth all winter, coming into full perfection about Easter time, when its pure white blooms are of great value.

CULTURAL NOTE. To obtain the best results in the cultivation of Watsonia Ardernei it is important that the bulbs be given perfect drainage, and where possible, a good loamy soil to which there has been added a liberal dressing of well-rotted manure. Owing to the height of the plants when in bloom it is advisable to stake them, as it prevents their breaking off at the surface of the ground.

Price of large bulbs: \$1.25 per doz., per 100 \$9.00, \$80.00 per 1000.

TESTIMONIAL ON MICHELL'S SEEDS

Henry F. Michell Co.

Silver Springs, Md.

Gentlemen:—Just a few lines to thank you for your promptness in filling our seed order. I certainly appreciate Michell's Seeds because they are always so true and reliable. All the seeds we bought last year came from your house, and everything came up and matured. I think if more people used your seeds and bulbs there would be more success and less disappointments. Respectfully,

W. H. MORRIS.

LAMBERT'S PURE CULTURE SPAWN

As we understand it, the difference between Direct and Standard Spawn is as follows: The "Direct" bricks are inoculated with spores taken from specimen mushrooms; without laboratory transfer. The "Standard" bricks are inoculated from spores propagated and when propagated transferred into the bricks of spawn. The Direct bricks produce the truest types of one kind or shade of color mushrooms.

TESTIMONIAL.

Norristown, Pa.

I am writing to tell you of the great success with our garden, we raised some of the finest truck I ever saw, and it's all due to your seeds. For two years my garden was a failure, the seed of course came from another source.

JOHN B. FRETZ.

Our special mixture of Grass Seeds for golf course work cannot be excelled by any one. Landscape architects and others who have courses and pleasure grounds to lay out will do well to consult us before buying Grass Seed elsewhere.

MICHELL'S CELEBRATED GRASS SEED MIXTURES—SEPTEMBER and OCTOBER are ideal months for sowing

Nowhere in Philadelphia is the amount of Grass Seed handled by us equaled. Quality has always been our precept. Our prices will be found exceedingly low. We aim to supply only pure, clean grasses, strictly free from chaff or adulterations. Grass Seeds is one of our specialties, and on account of our enormous sales, we can offer them at attractive prices.

TESTIMONIALS

Bureau of City Property, Philadelphia
I congratulate you on the results obtained in the City parks and squares from the 300 bushels of Michell's Evergreen Grass Seed. The lawns are in better condition than ever before, and numbers of people admiring them have questioned my superintendents in regard to the seed.

JOHN C. LEWIS, City Forester.

Augusta, Ga.
That Evergreen Grass Seed sent me gave better results than any other lawn grass mixture I have ever used. I certainly can recommend it for the South, as it will not burn out.

SEASONABLE FARM SEEDS**Prices Subject to Market Changes****NOW is the time to sow ALFALFA**

Alfalfa (Utah Grown Seed). This grade of Alfalfa is far superior to the ordinary Western grade. It is more vigorous in growth, and the seed has greater vitality. Sow ½ bushel per acre in May or during July and August and early September, top dress it with manure every Fall, and it will rarely Winter kill. It can be cut usually three times in one season. 20c. per lb.; per peck, \$2.75; \$10 50 per bu.

THE ADJUSTABLE IRON PLANT STAND

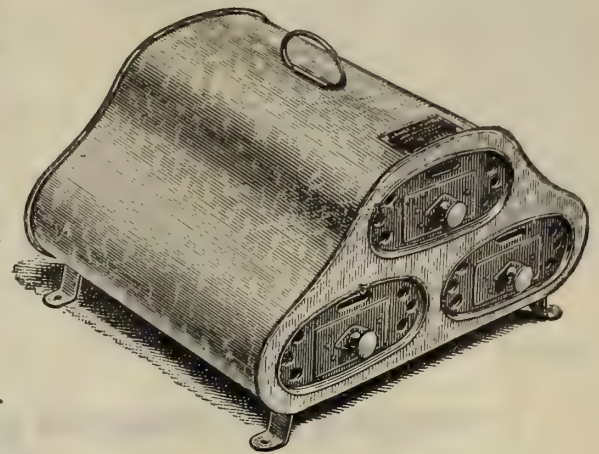

Something New, Economical and Everlasting

An article every florist who does decorating should have. One stand takes the place of many on account of the different heights to which it can be adjusted. The outfit consists of a notched pipe sleeve inside of which an iron pipe slides up or down. It has a pin affixed which catches in the various notches in the sleeve. An adjustment of height can be had every one and one-half inches.

RAFFIATAPE**The Great New Tying Material**

This article is made of a composition of paper and linen, and is tremendously strong. It is about 1/8 in. broad, and is put up in 250-yd. spools or reels. There is no waste as the reel is fitted with a small hook, which permits it to be hung from a button-hole, and it can thus be drawn off exactly as needed. Color, Nile green.

Per reel of 250 yards, 65c., 6 reels, \$3.75, \$7.00 for 12 reels.
